

## Reflections

Tuesday, April 28, 2020

**A Special Thank You:** Have you noticed those guys in bright reflective vests picking up trash along Roberts Mountain Road, Rocky Road, Adial Road, and even down Route 6? They are not from VDOT but our own New Land neighbors, Steven and Andrew, who live on Gasp Lane. They have taken it upon themselves to keep the roads leading to and from our beautiful community even more beautiful. Gratitude and many thanks to these Friends of New Land for what they are selflessly doing for all of us! Kudos, Steven and Andrew! We can all help out by chasing down any trash that may escape from our own property or vehicles, or tossed out by those who come to do work for us.

Sending you all the very best. Check on your neighbors. Wear masks. Be safe.  
Jan & Chuck

### Monroe Stuff

We've done some planning on our move to put residential programs online. Here's our latest thinking...

The plan is to:

- create an online course for every residential program that is suitable for a digital environment.

- "every" is important. We have no idea if, when and how the lifting (and re-imposition) of shelter in place orders will go.

- We must be ready

- It's where we should be going anyway

- Stick to the schedule of programs for the rest of 2020.

- To change our schedule would be a logistical nightmare of unimaginable proportions

- Courses **could** be offered residential, online, or in hybrid formats (residential and online at the same time)

- Take what we offer, convert it, practice it online several times, learn, and adapt before June 13. Then go. Learn some more.

- We are in the midst of logistical planning for limited size residential programs should that happen June 10

- NPC can hold 9 participants & 1 trainer (plus staff)

- RMR can hold 10 participants & 1 trainer (plus staff)

We are planning new ways for Dining / sanitizing / hospitality checklists / thermometers, etc

Goodnight.

See you Wednesday,

Scott
